Unit: Operations and Algebraic Thinking

Grade: Grade 2

Common Core State Standards Domain: Operations and Algebraic Thinking

Common Core State Standards	RSU 54/MSAD 54 Objectives	Instructional Resources/Activities
<p>Represent and solve problems involving addition and subtraction.</p> <p>1. Use addition and subtraction within 100 to solve one- and two-step word problems involving situations of adding to, taking from, putting together, taking apart, and comparing, with unknowns in all positions, e.g., by using drawings and equations with a symbol for the unknown number to represent the problem.</p>	<p>Represent and solve problems involving addition and subtraction.</p> <p>1a. Solve problems involving addition and subtraction of whole numbers up to 100.</p> <p>1b. Solve addition and subtraction word problems through the use of stories and modeling. Solve each of the problem types (adding to, taking from, putting together, taking apart, and comparing with unknowns in all positions.)</p> <p>1c. Explain strategies and solutions for solving word problems.</p> <p>1d. Model situations represented in word problems.</p>	<p>1a. <u>Scott Foresman</u>, Chapters 1 and 2</p> <p>1a. <u>Teaching Arithmetic: Lessons for Introducing Place Value</u>, <i>Cover a Flat</i> pp. 139-145</p> <p>1a. <u>Teaching Arithmetic: Lessons in Addition and Subtraction</u>, <i>Name Values</i> pp. 68-79</p> <p>1a. <u>Navigating through Number and Operations PK-2</u>, <i>One Out</i> pp. 82-84; <i>Hit the Target</i> pp. 79- 80</p> <p>1a. <u>Navigating through Algebra in PK-2</u>, <i>Spin Once</i>, <i>Spin Twice</i> pp. 62-64</p> <p>Connie Clark's Problem Solving Books</p> <p>1b. <u>Zeroing in on Number and Operations</u>, <i>Join and Separate; Subtraction is More Than Take Away; What Do You See?; Posing Problems</i></p> <p>1c. <u>Zeroing in on Number and Operations</u>, <i>Join and Separate; Subtraction is More Than Take Away; What Do You See?; Posing Problems</i></p> <p>1d. <u>Zeroing in on Number and Operations</u>, <i>Join and Separate; Posing Problems</i></p>
<p>Add and subtract</p>		

<p>within 20.</p> <p>2. Fluently add and subtract within 20 using mental strategies.¹ By end of Grade 2, know from memory all sums of two one-digit numbers.</p>	<p>Add and subtract within 20.</p> <p>2a. Fluently add and subtract within 20 using mental strategies.</p> <p>2b. Know from memory all sums of two one-digit numbers (up to 9+9.)</p> <p>2c. From memory, know subtraction within 10.</p>	<p>2a. <u>Teaching Arithmetic: Lessons in Addition and Subtraction</u>, <i>X-Ray Vision</i> pp. 122-123</p> <p>2a. <u>Navigating through Number and Operations PK-2</u>, <i>Double Plus or Minus</i> pp. 62-63</p> <p>2a. <u>Navigating through Algebra in PK-2</u>, <i>Spin Once, Spin Twice</i> pp. 62-64</p> <p>2a. <u>Mastering the Basic Math Facts in Addition and Subtraction</u></p> <p>2a. <u>Zeroing in on Number and Operations</u>, <i>Facts for Ten; Doubles and Near Doubles; Linking Addition and Subtraction; Anchoring to Ten</i></p> <p>2a. <u>Scott Foresman</u>, Chapter 1 and 2</p> <p>2a. RSU 54/MSAD 54 Math Curriculum

Content Area: Math
Unit: **Geometry**

Grade: Grade 2

Common Core State Standards Domain: **Geometry**

Common Core State Standards	RSU 54/MSAD 54 Objectives	Instructional Resources/Activities
<p>Reason with shapes and their attributes.</p> <p>1. Recognize and draw shapes having specified attributes, such as a given number of angles or a given number of equal faces.¹ Identify triangles, quadrilaterals, pentagons, hexagons, and cubes.</p> <p>2. Partition a rectangle into rows and columns of same-size squares and count to find the total number of them.</p> <p>3. Partition circles and rectangles into two, three, or four equal shares, describe the shares using the words halves, thirds, half of, a third of, etc., and describe the whole as two halves, three thirds, four fourths. Recognize that equal shares of</p>	<p>Reason with shapes and their attributes.</p> <p>1a. Recognize and draw shapes having specified attributes, such as a given number of angles or a given number of equal sides or faces.¹</p> <p>1b. Identify triangles, quadrilaterals, pentagons, hexagons, cubes, rectangular prism, cone, sphere, and triangular prism.</p> <p>2a. Partition a rectangle into rows and columns of same-size squares.</p> <p>2b. Count to find the total number of squares in an equally portioned rectangle.</p> <p>3a. Partition circles and rectangles into two, three, or four equal shares.</p> <p>3b. Describe equal shares using the words halves, thirds, half of, a third of, etc., and describe the whole as two halves, three thirds, four fourths.</p>	<p>1a. <u>Navigating through Geometry PK-2, Name That Block</u> pp. 19-21; <u>Skeletons</u> pp. 76-78 1a. <u>Scott Foresman</u>, Lesson 7-1</p> <p>1b. <u>Navigating through Geometry PK-2, Name That Block</u> pp. 19-21; <u>Skeletons</u> pp. 76-78 1b. <u>Scott Foresman</u>, Lesson 7-2</p> <p>2a. <u>Navigating through Geometry PK-2, Folding Shapes</u> pp. 59-61 2a-b. <u>Scott Foresman</u>, Lesson 7-9</p> <p>2b. <u>Navigating through Geometry PK-2, Folding Shapes</u> pp. 59-61</p> <p>3a. <u>Navigating through Geometry PK-2, Fraction Concentration</u> pp. 33-35; <u>Folding Shapes</u> pp. 59-61 3a. <u>Scott Foresman</u>, Lessons 7-9 and 7-10</p> <p>3b. <u>Scott Foresman</u>, Lesson 7-10</p>

<p>identical wholes need not have the same shape.</p> <p>¹ Sizes are compared directly or visually, not compared by measuring.</p>	<p>3c. Recognize that equal shares of identical wholes need not have the same shape. (Example: A square can be equally divided into triangles or rectangles.)</p> <p>¹ Sizes are compared directly or visually, not compared by measuring.</p>	<p>Literature Connections – <u>The Greedy Triangle</u> by Marilyn Burns <u>Grandfather Tang’s Story</u> by Ann Tompert <u>When a Line Begins...a Shape Begins</u> by Rhonda Gowler Greene <u>Mummy Math, An Adventure in Geometry</u> by Cindy Neuschwander</p> <p>Additional Resource – Calendar Math</p>
